

24 SECOND SHOT CLOCK OPERATOR

- ◆ The 24 second shot must start when a team gains control of the ball.
- ◆ Stop the 24 second shot clock and reset to 24 seconds when:
 - Unsuccessful shot for a field goal hits the ring and is rebounded by the defensive team;
 - When a defensive foul is called in a team's back court;
 - When an official blows for a foul, violation or jump ball resulting in change of possession;
 - When a shot for a field goal enters the basket
- The 24 second clock is then reset when a player gains control of the ball on the court and the clock is running.
- ◆ Stop and reset to 14 seconds when the same team that previously had control of the ball obtains an offensive rebound; or the team is awarded a frontcourt throw in as a result of a defensive foul or foot ball violation, and 13 seconds or less are displayed on the 24 second clock.;
- ◆ Stop and hold the 24 second clock when:
 - The same team is awarded the throw-in after the ball goes out of bounds;
 - When the jump ball or double foul is called and the team who has possession at the time is awarded the ball back;
 - When a defensive foul or football violation is called in the team's frontcourt and the shot clock shows 14 seconds or more.
- ◆ If the 24 second clock is running and there is a loose ball, the device continues to run until one of the above occurs.
- ◆ If the device sounds in error, the game continues. Reset the 24 second shot clock immediately and start it when a team has control of the ball on the court.

Download a copy of the official FIBA rules from www.fiba.com

CHAIRPERSON

The chairperson is responsible for the smooth running of the scorebench. The chairperson is responsible for:
