MyRugby App Information for team list and Scoring

Team lists and scores can ONLY be generated by doing the following:

Sporty Team Builder & MyRugby App

[MyRugby.co.nz](https://www.myrugby.co.nz)

In Sporty Team Builder – this is done on your laptop, desktop computer or tablet device.

Step 1 – Drag and drop the players from the master list into your team.

Step 2 – Drag and drop your Manager from the 'Administrator/ Volunteer' tab into your team.

Step 3 – Select your team and assign this person as the scorer (instructions and tutorials can be found on the **MyRugby** website).

Information for Rugby Player Registrations, Team List and Scoring Games

Step 4 – Download the **MyRugby App** from the Google Play or Apple store.

Step 5 – Check your emails for your welcome email from **MyRugby** and set your password.

Once logged into the App the team you manage will appear automatically.

In **MyRugby App** - this is done on phone or tablet device

Step 5 – Assign players to their corresponding positions in the App (instructions and tutorials can be found on the MyRugby website).

Step 6 – Submit your team by pressing the submit button.

Note: Changes can still be made to the team after it is submitted, right up until kick-off and the team list will be automatically sent through to WRU.

Remember to instruct your team's scorer to score the game through the **MyRugby App**, and assign the tries/cons etc to your teams individual players (this includes your opposition score,

Note: you can't assign to their players as you don't have access to their data) at the conclusion of the game get together with opposition manager to confirm the score and both teams submit the score which will automatically update.
