We believe **two key things should** be considered for Schools and Event Host

- 1] Any school should be able to withdraw from any 'event' as of their right to support their own student welfare
- 2] Any host of an event [RSO or School] should be able to cancel an 'event' if they feel uncomfortable going ahead as an 'event' organiser

If any of the smaller events go ahead, we recommend the following protocols be followed for attendance and protection.

UPCOMING WAIKATO SECONDARY SCHOOL SPORTS EVENTS

Based on Ministry of Health guidance, it is essential to **keep an attendance record** of everyone who attends your events on each occasion. This is the protocol you should follow.

- ✎ this **attendance record-keeping role** is to be assigned to one individual to avoid multiple people sharing a pen/pencil or keyboard to input information.
- ✎ This information on attendance should include all athletes, officials, volunteers, coaches, family members and others in attendance including time of arrival and departure.
- ✎ We also advise confirming with all your members and attendees that their contact details are current (email and phone number)
- ✎ That you ask them to indicate if they or an immediate family member have travelled overseas in the last 4 weeks
- ✎ A single person at your event should be identified and let your members and attendees know they are the person to contact if they or an immediate family feel unwell shortly after attending an event

We advise you also to highlight the Ministry of Health Guidelines for “**Prevention for Protection of Yourself and Others**” and make these considerations **prominent** at the events and at **pre event briefings**

- ✎ Cough or sneeze into your elbow or by covering your mouth and nose with tissues.
- ✎ Put used tissues in the bin or a bag immediately.
- ✎ Wash your hands with soap and water often (for at least 20 seconds).
- ✎ Try to avoid close contact with people who are unwell.
- ✎ Don't touch your eyes, nose or mouth if your hands are not clean.
- ✎ Avoid personal contact, such as kissing, sharing cups or food with sick people.
- ✎ Clean and disinfect frequently touched surfaces and objects, such as doorknobs.
- ✎ Stay home if you feel unwell.
